earn respect from gardeners everywhere.
Grower Weeks

Name Blueberry **Price** \$24.99
Variety Spartan
Quantity 10
Description: Spartan is as strong as its name implies;the bush is tall and
upright, which benefits the overall ripening of the berries
because of air circulation and sun penetration into the plants
canopy. Most blueberry plants are self fertile but will produce
better and larger berries if two or more varieties are planted
together.
Grower Weeks

Name Blueberry **Price** \$24.99

Name Raspberry **Price** \$12.99
Variety Munger Black Raspberry
Description: 'Munger' (introduced in 1897) is a mid-season black raspberry cultivar that is noted for its excellent flavor. It is the leading commercial variety planted in the Pacific Northwest (Oregon is the center of commercial production in the U.S. today). One berry crop each year is produced in early summer.
Quantity 50
Grower Weeks B

Name Blackberry **Price** \$12.99
Variety Boysen Blackberry
Description: The original "Boysenberry": a Rubus (caneberry) hybrid of uncertain origin cultivated and promoted by Walter Knott (eventually Knott's Berry Farm) near Anaheim, California beginning in the 1920s and 30s. Large, juicy, delicious, sweet-tart berries famous for jams and pies. Also wonderful fresh, especially when picked just right and consumed within a day or two. Vine-like, trailing, thorny growth habit. Generally more productive than the thornless selection. Early harvest. Self-fruitful. Zones 5-10.
Quantity 50
Grower Weeks B

Name Blackberry **Price** \$12.99
Variety Olallie Blackberry
Description: A cross between Youngberry and Loganberry, classified as a blackberry. Large, elongated fruit with unique sweet-tart flavor: a long-time California fruit stand favorite for fresh-eating, pies and jams. Vine-like (trailing) structure, requires support. Lower chilling requirement than Boysen. Takes up to two years to bear. Zones 7-9, possibly 6-10.
Quantity 50
Grower Weeks B

Name Blackberry **Price** \$12.99
Variety Thornless Logan Blackberry
Description: A unique and flavorful berry! This natural cross between blackberries and red raspberries produces long, tasty, dark red berries that are good for fresh eating, juicing, or making pies, jams and jellies. Thornless canes grow horizontally, so supports help keep fruit off the ground. Berries are sweetest when allowed to ripen on the bush. Heat-tolerant.
Quantity 100
Grower Weeks B

Name Hops **Price** \$10.99
Variety Nugget Hops Rhizomes
Description: Botanical Name: Humulus lupulus 'Nugget' Height: Vine grows 20 - 25 feet annually. Spacing: 8 feet between mature vines. Spread: Vine. Quantity 10
Grower Weeks B

Name Blueberry **Price** \$24.99
Variety Chandler Northern Highbush
Quantity 10
Description: Chandler holds the distinction of being the world's largest blueberry with fruit the size of cherries. The long ripening season will provide gardeners with a bounty of flavorful, fresh picked fruit for up to six weeks. Eaten by the handful or presented as part of a specialty dessert, Chandler will be a favorite. **Grower** Weeks B

Name Huckleberry **Price** \$24.99
Variety Evergreen Huckleberry
Quantity 10
Description: Evergreen Huckleberry is a prized addition to any Northwest native landscape with its little urn-shaped flowers, perennial leaves and glossy, blackish-purple berries. Morphology: An upright, evergreen, broad-leaved shrub that typically grows 2'-3' tall in the sun but up to 10' in height if grown in full shade. **Grower** Weeks B

Name Grape **Price** 12.99
Variety Interlaken
Quantity 25
Description: Hybrid of Thompson Seedless & American. More cold hardy than Thompson. Less heat to ripen. Pale green berry is sweet, crisp. Early harvest. 100 hours. Self-fruitful. Cane prune. **Grower** D.W.N.

Name Rhubarb **Price** \$12.99
Variety Victoria
Quantity 50
Description: One of the sweetest and least tart rhubarbs, Victoria rhubarb was offered in 1837, the year Victoria became queen. It can be harvested in its second year and has crisp, tender stems that make excellent cobblers, pies, compotes and wines. Those traits sent its popularity soaring and the plant has been used and traded ever since. **Grower** Weeks B
