Variety Thornless Bosen Blackberry	
Description: Rubus ursinus var. loganobaccus, a hybrid of blackberry, raspberry, dewberry and loganberry. Very large berry up to 2.5", dark maroon in color with an intense, tangy, sweet flavor. Excellent quality with few seeds and a pleasant aroma. Vine-like trailing growth habit. Harvest through summer. Self-fruitful, best in zones 5-10.	Quantity 100
	Grower Weeks B

Name Blackberry

Price \$12.99

Variety Thornless Logan Blackberry

Quantity 100

Description: A unique and flavorful berry! This natural cross between blackberries and red raspberries produces long, tasty, dark red berries that are good for fresh eating, juicing, or making pies, jams and jellies. Thornless canes grow horizontally, so supports help keep fruit off the ground. Berries are sweetest when allowed to ripen on the bush. Heat-tolerant.
